WeShip Express Key Services

Temperature Controlled Shipping

- Refrigerated trucks connecting strategically-located nationwide warehouses ensure temperature-sensitive products arrive in pristine condition
- Ice-packs available for final mile carrier delivery

Compliance Expertise

- WeShip is constantly monitoring state and international regulations on shipping alcohol to ensure the greatest access to customers
- WeShip's optional compliance program allows clients to compliantly expand their reach far beyond the 14 states available to DTC wine retailers

Regional Network

- WeShip has the largest connected regional network in the industry, all trackable through our single upload and order management system
- Regional carrier partners' performance is continually monitored and evaluated, taking this burden off clients so they can focus on growing their business
